Brown “Bee” Gone RTU

Carpet Tannin Treatment

Brown “Bee” Gone RTU removes stains caused by coffee, detergent residue, red wine, rust, tea, tannin, urine and other browning type stains from carpet. Contains citric acid instead of harsh acids or solvents.

User Friendly:

Packaged with a safe to use flip top cap for dispensing the ready to use solution. Minimizes chance of chemical exposure.

Easy To Use:

Maintain the daily appearance of the carpet without mixing or diluting.

Safe For All Wet Cleanable Carpets:

The formulation is pH balanced for stain resistant carpets and safe for natural fiber carpets.

Highly Effective Cleaning:

Removes stubborn stains without leaving a residue that attracts dirt and causes the carpet to resoil. Minimizes “ghost” spots or the return of the stain after treatment.

USE INFORMATION:

Always thoroughly vacuum the carpet and remove any attached deposits from the carpet prior to use. If there is a question on the carpet’s colorfastness, always pretest in an inconspicuous area. Use for daily maintenance of carpets at schools, restaurants, nursing homes, offices, department stores, hospitals and hotels.

PRODUCT SPECIFICATIONS:

pH (concentrate).....	4.0 ± 0.3
