TILE & GROUT CLEANER NA Non-Acid Cleaner

Product No.: 9341

Tile and Grout Cleaner NA is a concentrated heavy duty alkaline cleaner and restorer that is un-matched in its ability to clean and restore stone and grout to its original color. This non-acid formula is safe to use on natural stone and will not etch the surface of the stone. Use to deep clean heavily soiled tile and grout by removing greases, oils and any sealers that are typically imbedded in stone floors and grout areas.

**DIRECTIONS FOR USE:**

Protect all adjacent surfaces with masking film or plastic. Thoroughly wet area to be cleaned prior to using this product. Coverage: 2750 ft/gallon.

1. DILUTE as follows according to end use:
Deep Cleaning: Dilute 13 oz to 1 gallon of water (1:10 ratio).
Wax and Sealer Removal: Dilute 16 oz to 1 gallon of water (1:8 ratio).
 2. Apply using a wet mop directly from the bucket. Do not wring out mop.
 3. Let Tile and Grout Cleaner NA act on the surface for a short time. Keep surface wet.
 4. For heavily soiled areas, scrub with a hard bristle brush.
 5. Using a clean mop, rinse the floor with fresh water.
 6. Pick up excess water with wet-vac or auto scrubber.
- TIP: Safe to use on all stone surfaces. Always test a small area to check for desired outcome.

FOR INDUSTRIAL USE ONLY

IMPORTANT: Use only as directed. Do not mix with anything unless recommended since harmful conditions and poor performance could result. Do not pour unused product back into original container. All floors are slippery when wet. To prevent falls, exercise care when working and block off traffic with "Caution" signs until floor is completely dry.

KEEP OUT OF REACH OF CHILDREN

MODO DE EMPLEO:

Proteja todas las superficies adyacentes con película adhesiva o plástico. Cuidadosamente el área húmeda para limpiarse antes de usar este producto. Cobertura: 2750 pies / galón.

1. Diluir como sigue de acuerdo con su uso final:
Limpieza profunda: Diluir 13 oz a 1 galón de agua (proporción 1:10).
Cera y sellador de eliminación: Diluir 16 oz a 1 galón de agua (proporción 1:8).
2. Aplique usando un trapeador húmedo directamente de la cubeta. No exprimir trapeador.
3. Vamos Tile y limpiador de lechada NA actuar sobre la superficie durante un corto tiempo. Mantenga la superficie húmeda.
4. Para áreas muy sucias, frote con un cepillo de cerdas duras.
5. Usando un trapeador limpio, enjuague el piso con agua fresca.
6. Recoge el exceso de agua con un depurador húmedo-vac o auto.

SUGERENCIA: Seguro de usar en todas las superficies de piedra. Siempre pruebe una pequeña zona para comprobar el resultado deseado.

ÚNICAMENTE PARA USO INDUSTRIAL

IMPORTANTE: Utilice únicamente según las indicaciones. No mezclar con nada menos que lo recomienda ya que las condiciones peligrosas y el rendimiento podría deteriorarse. No vierta el producto no utilizado de nuevo en el recipiente original. Todos los pisos son resbalosos cuando están mojados. Para prevenir caídas, tenga cuidado al trabajar y bloquear el tráfico con "precaución" señales hasta que el piso esté completamente seco.
